Mr. Habib

GACarver, Jr.

Attached is a draft "think-piece," intended primarily to provide a focus for some lively discussion on Tuesday. It is not an Agency position paper and some of my own colleagues have very definite reservations. You probably will also have reservations, but I want to talk over this subject at our lunch on Tuesday.

STAT Also attached is [] cable which prompted these comments. These documents are for your eyes only, and I would appreciate your not showing them to anyone else.
